

Sony's DSR-PDX10 DVCAM™ camcorder, is the most compact, one-piece 3 Megapixel CCD DVCAM all digital camcorder, and the first DVCAM Camcorder ever with built-in 1152X864 stills and MPEG movie image capturing capability! The DSR-PDX10 provides high quality acquisition in the DVCAM component digital format, allowing up to 40 minutes recording on one Mini DVCAM tape or 60 minutes on the same tape in the DV mode. This highly compact camcorder features three newly developed 1/4.7 inch million pixel CCD's which allow two scanning modes: 480 progressive (for still) or interlaced (for video). These new Megapixel CCD's also provide high quality acquisition with high resolution and sensitivity with low vertical smear, plus full-resolution precision 16:9 acquisition. Additionally, a USB port is provided for Web Streaming connection to a PC.

Sony's DSR-PDX10 DVCAM Compact Digital Camcorder

DSR-PDX10 • Suggested List Price \$2,395.00 ▼
