

The PFM-42V1 (42" viewable area, measured diagonally) monitor supports a new plasma panel with increased brightness and contrast ratio. Showcasing a high resolution picture at 852 x 480 pixels and a stylish design. The PFM-42V1 also has a separate model the PFM-42V1A/S which is specifically made for high altitude area usage. The products include a closed caption decoder for high ambient noise applications such as clubs, stadiums, arenas, and restaurants and are also ideal for digital signage, tradeshow, and board rooms/conference use.

Sony introduces the PFM-42V1 PlasmaPro™ Flat Panel Display Full Line Up

PFM-42V1 • Suggested List Price - Dealer pricing may vary ▼
