

Professional broadcasting and production is increasingly a multi-format world - and Sony's PVM-L5 series video monitors allow you to handle multiple signal formats with uncompromising picture quality, input flexibility and cost efficient operation.

For versatility in digital video production, these monitors support a wide variety of signal formats including 480i, 480p, 1080i, 720P, and 1080/24Psf. The PVM L5 series incorporates Sony HR Trinitron® CRT's to achieve a resolution of 800 TV lines and utilizes SMPTE-C phosphors for outstanding uniformity and picture quality

Sony's PVM L5 Series Professional Multi-format Monitors
