

In the legacy of the immensely popular DSR-PD150, Sony introduces the new DSR-PD170 DVCAM® camcorder. The DSR-PD170 features three Advanced HAD™ 1/3 inch CCDs which provides high quality acquisition with increased resolution and sensitivity while reducing noise and vertical smear. The new enhancements to the CCDs have enabled the minimum illumination to be improved to an incredible 1 lux. The audio process circuit has also been improved raising the performance by 6 dB. A host of additional key features have also been implemented, including a larger handle with start/stop and zoom control, larger viewfinder, which had been inspired by the feedback received from DSR-PD150 users. This compact camcorder provides high-quality acquisition in the DVCAM component digital format, as well as in DV, allowing up to 40 minutes recording on one tape Mini DVCAM tape, or 60 minutes on the same tape in the DV mode.

Sony introduces the DSR-PD170 3 CCD DVCAM® COMPACT CAMCORDER
