PROFESSIONAL AUDIO LITERATURE ORDERING INFORMATION

The following is being provided to assist you with your ordering of Sony Professional Audio literature. This information was last updated on November 18, 1998.

All Sony Broadcast and Professional Group literature and promotional material is warehoused and distributed by an independent company. Please place your orders directly with them. They are:

The Hibbert Group
P.O. Box 8116
Trenton, NJ 08650

Please direct your orders to the attention of Steve Harris at (609)-421-4023. To fax an order dial (609)-393-0338.

A complete list of "Order Numbers" is given below. Numbers shown in parenthesis are for earlier versions of brochures, but these are still useable if the primary number is out-of-stock.

Not every item will be shown on Hibbert's "Literature Order Form", but most can still be ordered simply by writing in the Order Number on the form. Out-of-stock brochures are not always back-ordered, and may need to be reordered. Please check the packing list to see if out-of-stock items were back-ordered. Maximum quantities are 25 pieces per item per order.

If you need larger quantities (or a few pieces on an emergency basis) please call your Regional Audio Manager for assistance. This list will be updated as items are added and deleted.

If you have a problem receiving literature on a timely basis, please contact Josephine Cuzzo-Heffernan at Sony Headquarters. Her number is (201)-358-4106, and she oversees all aspects of literature fulfillment for the Broadcast and Professional Group.

The Literature Order Form mailing list is derived from Sony's database of Dealer/Rep contract holders. If you need to add, delete, or modify your company's listing to properly receive Literature Order Forms and other Marketing Bulletins please contact your Regional Audio Manager and they will update the contract database through their regional office.
