

Centralized monitoring, diagnostics and control for your Sony SuperSmart™ and SuperBright™ projectors. PJNet! allows you to centralize your AV/IT support resources while saving your company time and money by remotely troubleshooting and diagnosing and projector issues. Fix projector problems the second they occur by having PJNet! software e-mail or page the appropriate personnel. PJNet! software is ideal for installations where you have multiple projectors installed in various locations across your company.

Sony's PJNet!™ Software

PJNet! Software • Suggested List Price \$500.00 ▼
