Page 1 of 1

Hello all,

Good news for two of our new products! The 306 preamp/ducker will be shipping this month. Please make it a priority in your daily sales calls to talk this new 300 series product up and start taking orders on it! Dealer cost is \$194.00.

440 Foreground Audio Controller - Our June '99 ship date is on target. The response at the recent NSCA show was tremendous on this product. Dealer cost is \$324.00. Don't forget the RC-2 optional remote controller (dealer cost \$32.00). Orders on the 440 will be warmly received by Symetrix!

Tax Relief Special - I have extended this special until May 28th. And yes, the 306 can be included in this "just for the little guy special".

Happy selling!

Mark Zyla
