581E Distribution Amplifier

Ultra Flexible, High Performance Distribution Amplifier

- Four balanced inputs, sixteen balanced outputs
- Can be configured as a 4x4, 2x8 or 1x16 distribution amplifier
- Four LED input level meters
- Master input level controls and individual output level controls
- Isolate more expensive upstream gear from transmitter lightning strikes (much cheaper to replace or service than expensive specialized broadcast processors located upstream)

MSRP = \$599

MAP = \$499

Best Price = \$353

Profit @ MAP = 30%
