Note: Contact the factory to determine frequencies for multiple system projects. Please be prepared to provide the following information:

- Location of installation if in a fixed area (city/state)
- List of frequencies already in use that will operate simultaneously
- Type of application ie. industrial, medical, nuclear, sports etc.

When placing orders for BTR 500/600 use the standard part number followed by SP. The frequency should be entered by Group and Base number.

Example: 71205000-SP Group 5 #4

Special frequencies within the range limits of the equipment are available at additional cost. Consult with factory for details.
