

Ideal hands free microphone for singers, entertainers, back-up musicians for use with wireless transmitters or wired phantom power. Brilliant condenser sound quality with supercardioid response. An adjustable behind-the-head band secures the microphone while allowing complete freedom of movement. Comfortable wearing and does not disturb long hair coiffures. Precise placement is obtained with the 4mm diameter flexible gooseneck*.

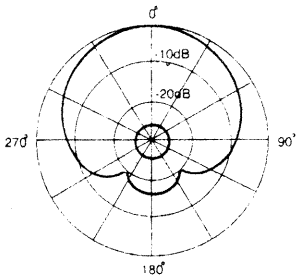

- 1. RED : MIC B+
- 2. WHITE : MIC SIG
- 3. SHIELD : MIC GND

SPECIFICATIONS:

Generating element : Back electret condenser · Polar pattern- Supercardioid
