Open up the free over-the-air world of HDTV programming

- Easily turns your HDTV-ready TV or A/V monitor into a true HDTV.
  Provides clear reception of high-definition and enhanced definition TV signals available on local broadcast stations.

- Bring high-quality Dolby digital sound to your home theater.
  With Dolby AC-3 digital and MPEG audio decoding you can easily connect digital audio to your home theater surround sound system.

- Receive ATSC over-the-air broadcasts.
  Compatible with all 18 ATSC signal formats.

- Enjoy superior picture quality with component video output.
  Compatible with any TV or high-definition display that features component, composite or S-video inputs.

- Picture-in-picture capability.
  See what you’ve been missing. Use the PIP capability to watch your favorite news station without changing the station from that award-winning movie.

- Supports all digital TV output formats.
  Displays content in both standard (4:3) and wide-screen (16:9) aspect ratios and supports 480i, 480p, 720p and 1080i signals.

Make your HD-ready TV a true HDTV.

Simply plug the NextVision HD10 TV tuner into your HD-ready TV and you’ll be receiving over-the-air digital programming in no time. The HD10 provides CLEAR RECEPTION for the increasing number of high-definition and enhanced-definition TV signals available on local broadcast stations without additional subscription fees. Getting CD-quality sound right through your home entertainment system is easy with the DOLBY DIGITAL AND MPEG audio decoding. Add the NextVision HD10 to your HD-ready TV for true HDTV with no strings attached.
