ViewPen™ 100

WIRELESS PRESENTATION PEN

Control, manage and enhance your presentations.

ViewSonic's ViewPen™ 100 is more than just a laser pointer. It allows you to control, modify and enhance your presentations from a distance. With the control pen, you can also ADVANCE OR REVERSE THROUGH PRESENTATION SLIDES as you would with a remote control. Highlight important points on the screen. Change the width of the lines. Change the pen's color. You can even SAVE THE CHANGES YOU MAKE TO THE PRESENTATION. Wherever you point the laser pointer, your mouse follows. Control all your PC mouse functions from the back of the room with the laser. Connect the ViewPen sensor to your computer via a USB connection, complete the easy, one-step synchronization and you're on your way to dynamic presentations.

VERSATILE PRESENTATIONS MADE EASY

> Dynamic, interactive presentations
No white board required. The laser pointer works effectively against any solid, white, low reflection surface.

> Present and control from a distance
Use the laser pointer to control your presentation and your PC's mouse functions.

> Programmable short-cut buttons
Use the programmable short-cut buttons to further enhance the efficiency and versatility of the ViewPen.

> Easy connection and set up
Use the USB connector to connect the ViewPen to your notebook. Complete the easy one-step synchronization with your projector and begin yor presentation.

> Cost effective solution for mobile presentations
With its easy set up and connectivity, light weight and portability, the ViewPen™ 100 goes anywhere and adds flexibility to your presentations and meetings.
