HOW TO USE YOUR 1232 KEYSET

- Your Inter-Tel keyset has 12 C.O. line keys for outside calls. These are indicated in the procedures with a [LINE].
- There are 6 feature keys for easy use of the many applications. These keys are defined below.
- Your keyset is equipped with an internal speaker and microphone to receive handsfree intercom calls and pages.
- The line keys and four of the feature keys are equipped with lamps (LED's) which flash at different rates. The keys and their flash rates are shown on the back panel.
- There are two dial tones. When you lift the handset, you hear the intercom dial tone. If you then press an available (unlit) line key, you hear the outside dial tone.
- In the procedures, you are told to hang up the handset. In some cases it may be convenient to "hookflash," which means to press and immediately release the hookswitch located under the handset.

SPECIAL FEATURE KEYS

- [PHONE] Places a call on hold. Forwards your calls to another station. Places your keyset in Do-Not-Disturb.
- [INTER] Transfers an outside call to another station. Reverse transfers a call from another station. Connects a three-party conference.
- [ZONE] Places pages through keyset speakers in programmed zones.
- [QUE] Initiates an intercom callback. Requests to be queued onto a busy C.O. line.
- [MSG] Activates another keyset's Message Waiting key. Dials the Message Center for leaving messages. Speed dials stored numbers. Re-dials the last number dialed.
- [ON OFF] Controls internal speaker for call monitoring. Controls an external speaker for handsfree operation. Disconnects when dialing on-hook. Indicates incoming intercom call.
PLACE AN INTERCOM CALL

- Lift the handset.
- Dial the intercom number and listen for the double tone before speaking.
- If desired, press # to force the called party to lift the handset for privacy.

IF BUSY, CAMP-ON AS FOLLOWS:
- Do not hang up. You will automatically camp on and hear music-on-hold.
- When the called party is available, you will be connected.

IF BUSY, INITIATE CALL BACK AS FOLLOWS:
- Press que and hang up.
- When the called party is available, you will hear double tones.
- Lift the handset to respond.

IF BUSY, USE EXECUTIVE CALL WAITING AS FOLLOWS:
(if your keyset is enabled for this feature):
- Press # each time you want to signal the busy party (not to exceed once every 5 seconds).
- When the called party is available, you will be connected.

PLACE AN OUTSIDE CALL

TO PLACE A CALL OFF-HOOK:
- Lift the handset and press an unlit line key to receive the outside dial tone. The line key will double flash.
- Dial the desired telephone number.

TO PLACE A CALL ON-HOOK:
- Press D on/off.
- Press an unlit line key to receive the outside dial tone. The line key will double flash.
- Dial the desired telephone number.
- When the party answers, lift the handset to talk.
- If there is no answer, disconnect by pressing D on/off.

TO IMMEDIATELY PLACE ANOTHER CALL:
- Without hanging up, press the same line key again.
- When you hear the outside dial tone, dial the new number.

RECEIVE AN OUTSIDE CALL

WHEN YOU HEAR LONG SINGLE TONES AND SEE A SLOW FLASHING line key:
- Lift the handset.
- Press the slow flashing line key. The line key will double flash.

IF THE CALL IS BEING TRANSFERRED, YOU WILL HEAR THE INTERCOM DOUBLE TONE AND POSSIBLY AN ANNOUNCEMENT.
- Wait for the transferring party to hang up before following the above procedure.

OUTSIDE CALL WAITING

IF YOU HEAR A SINGLE TONE EVERY 15 SECONDS IN YOUR HANDSET AND SEE A SLOW FLASHING line key, YOU HAVE AN OUTSIDE CALL WAITING.
