Making Calls

<NOTE>
Off-hook: Lift the handset, or press the SP-PHONE button or MONITOR button.
On-hook: Replace the handset, or press the SP-PHONE button or MONITOR button again.

Intercom Calling

Allows you to make a call to another extension.

- For DSS button, see page 13.

System Speed Dialling

Allows you to make outside calls using previously programmed speed dial numbers.
This system supports eighty speed dial numbers which are available to all extension users.

Outward Dialling

Allows you to make a call to an outside party.

Line access code

- Automatic Line Access code: 9 or 0 (depending on the system program)
- Individual Line Access code: 81 (CO line 1) or 82 (CO line 2)
- The elapsed time of the call is displayed on a display panel of KX-T7130.

One-Touch Dialling

Allows you to call a number or access a system feature with the touch of a button.

Doorphone

Allows you to have a conversation with a visitor at your door.

To call a doorphone:
Proprietary Telephone Features

Available proprietary telephones are KX-T7130, KX-T7020, and KX-T7050.

Receiving Calls

**Answer**

- You can also answer a call by pressing a flashing CO or INTERCOM button.

**Handsfree Answerback**

Allows you to answer an intercom call without lifting the handset.

**Call Pickup**

Allows you to answer a call that is ringing at another telephone.

---

**When a Line is Busy**

**Last Number Redial**

Allows you to automatically re-enter the last outside number dialled.

**To unlock the door from an extension:**

- Off-hook
- Dial 32
- On-hook

**To unlock the door while talking to the doorphone:**

- Dial 3

- You can unlock the door for programmed time.
Proprietary Telephone Features

While Having a Conversation

**Call Hold**

Allows you to place an intercom or outside call on hold.

**To place a call on hold:**

Press HOLD button

**To retrieve a call on hold:**

Press CO or INTERCOM button which is flashing green

**Call Transfer**

Allows you to perform a Screened or Unscreened Call Transfer to another extension.

**To set the screened call transfer feature:**

- Press TRANSFER button
- Dial extension no. or press DSS button of destination
- Wait for answer and announce

**To set the unscreened call transfer feature:**

- Press TRANSFER button
- Dial extension no. or press DSS button of destination
- On-hook

**Call Hold Retrieve**

Allows you to receive a call that has been placed on hold by another extension.

**With CO button:**

Press CO button which is flashing red slowly

**With a feature number:**

- Off-hook
- Dial 5
- Dial CO Line no. (81 or 82)

- You can dial the extension number (21 through 26) on hold or the CO line number.

• For programming the hold recall time, see page 28 of the Installation Manual.
Proprietary Telephone Features

While Having a Conversation (contd.)

**Call Waiting**

During a conversation, a Call Waiting tone signals that there is a call waiting. You can respond to the waiting call by disconnecting from the first call or by placing the first call on hold.

*To talk to the new party by terminating the current call:*

- Press flashing CO button

*To talk to the new party by holding the current call:*

- Press HOLD button
- Press flashing CO button

**Conference**

Allows you to add a third party to a two-party conversation and make a three-party conference. You can have the following combination of calls on the line: three extensions, two extensions and one CO line, or one extension and two CO lines.

*To establish a conference:*

- Press CONF button
- Dial extension no. of the third party
- Press CONF button after the third party answers

*To leave the conference:*

- On-hook

• The other two parties can continue their conversation if they are not both CO lines.

*To terminate one party and talk to the other:*

- Press desired CO or INTERCOM button

Available proprietary telephones are KX-T7130, KX-T7020, and KX-T7050.
Proprietary Telephone Features

While Having a Conversation (contd.)

Call Splitting
Allows you to have two callers on a line and alternate between them. You can place the current call on hold and have a conversation with the other party.

To have a conversation with two intercom parties:

- Pressing the HOLD button alternates between the callers.

To have a conversation with one outside party and one intercom party, or two outside parties:

- You can alternate between callers by pressing the HOLD button and then the desired CO or INTERCOM button.

Microphone Mute
Allows you to turn off the speaker microphone so that you can consult privately with others in the room.

Paging Features
The Paging features allow you to make a voice announcement to several persons at the same time. Your message is announced over built-in speakers of proprietary telephones. The paged person can answer your page from a nearby telephone.

Paging All Extensions
Allows you to make a voice announcement to all extensions. Your message is announced over the built-in speakers of the proprietary telephones.

Paging–Answer
Allows you to answer an announced page at any extension within the system.

Available proprietary telephones are KX-T7130, KX-T7020, and KX-T7050.
Proprietary Telephone Features

Paging and Transfer

Allows you to transfer a call using the paging feature.

To transfer a call:

- Press TRANSFER button
- Dial 33
- You hear confirmation tone

Make announcement Wait for answer On-hook

Call Pickup Deny

Allows you to prevent another extension from picking up your calls with the “Call Pickup” feature.

To set:

- Off-hook
- Dial 731#

To cancel:

- Off-hook
- Dial 730#

Other Features

Call Forwarding

You can redirect all of your calls to another extension.

To set:

- Off-hook
- Press FWD/DND button
- Dial extension no. (21 through 26)

To cancel:

- Off-hook
- Press FWD/DND button
- Dial 0

- If your telephone is not equipped with the FWD/DND button, dial 7 + extension no. + # to set. Dial 70# to cancel.

Available proprietary telephones are KX-T7130, KX-T7020, and KX-T7050.
Proprietary Telephone Features

Other Features (contd.)

Do Not Disturb (DND)

Allows you to prevent other parties from disturbing you. Your extension will not receive intercom or CO calls.

To set:

| Off-hook | Press FWD/DND button | Dial 20 | On-hook |

To cancel the feature:

| Off-hook | Dial 740# |

To Cancel:

| Off-hook | Press FWD/DND button | Dial 0 | On-hook |

• If your telephone is not equipped with the FWD/DND button, dial 720# to set and 70# to cancel.
• The Do Not Disturb feature is not available when the paging feature is activated.

Data Line Security

Your extension is protected against interruptions from “Call Waiting”, “Hold Alarm”, and “Executive Busy Override” features. Data communication devices, such as computers and facsimiles, will operate as usual.

To set the data line security feature:

| Off-hook | Dial 741# |

External Feature Access

Allows you to access special features (e.g. Call Waiting) offered by a host PBX or Central Office. This feature is effective only during an outside call. You can access the feature by using the RECALL button.

To access an external feature (e.g. Call Waiting):

| Press Recall button | Talk to the new caller | Press Recall button | Talk to the first caller |

Available proprietary telephones are KX-T7130, KX-T7020, and KX-T7050.
Proprietary Telephone Features

Other Features (contd.)

Auto CO Hunting
Allows you to access an idle outside line automatically, when you go off-hook.

**To set:**

- Off-hook
- Dial 751#

**To cancel:**

- Press INTERCOM button
- Dial 750#

• When this feature is set, press the INTERCOM button after going off-hook to have access to other features.

Intercom Alerting Mode
Allows you to switch voice calling to ring calling when making an intercom call. In Voice-Calling mode, you can talk to the other party immediately after a confirmation tone.

**To set:**

- Off-hook
- Dial extension no. or press DSS button
- You hear confirmation tone
- 1 beep

- Press ×
- You hear ringback tone

• For programming, see page 28 of the Installation Manual.

Pulse to Tone Conversion
Allows you to change from Pulse to Tone mode so that you can access special services such as computer-accessed long distance.

**To set:**

- Dial phone no. (Pulse mode)
- Dial × and #
- Dial phone no. (Tone mode)

Station Feature Clear
Allows you to reset the following station features to the default setting:

• Call Forwarding
• Call Pickup Deny
• Auto CO Hunting
• Data Line Security
• Do Not Disturb

**To clear the setting:**

- Off-hook
- Dial 79#
- On-hook

Available proprietary telephones are KX-T7130, KX-T7020, and KX-T7050.
Other Features (contd.)

Time Setting (extension 21 only)
Sets the current time.

- The clock starts immediately after pressing #.

Date Setting (extension 21 only)
Sets the current date.

Flexible Night Service (extension 21 only)
This system supports both the DAY and NIGHT modes of operation. The system operation for originating and receiving calls can be different in night and day modes. “Flexible Night Service” can only be set by the extension 21.

To set the night mode:

To return to the day mode:

Confirming the current mode (with a display PT only):
Proprietary Telephone Features

Station Programming

Station Programming allows you to program a certain feature from your telephone individually. You need to switch your telephone to the station programming mode for programming. During programming mode, your telephone is in the busy condition to all callers. If you want to make a normal call handling operation, you should finish the programming mode.

To enter into the Station Programming mode:
1. Set the MEMORY switch on your telephone to "PROGRAM".
   • Make sure the handset is on the cradle and the SP-PHONE button is off.

Flexible Button Assignment

CO and MESSAGE buttons on your telephone can be assigned as a Direct Station Selection (DSS), One-Touch Dialling button or One Touch Access for System Features. Programmable Feature (PF) buttons can be assigned as a One-Touch Dialling button or One Touch Access for System Features.

Direct Station Selection (DSS) Button Assignment

Allows you to assign a flexible (CO and MESSAGE) button as a DSS button.

One-Touch Dialling Button Assignment

Allows you to assign a flexible button as a One-Touch Dialling button. Make sure to enter line access code (9 or 0, 81 or 82) first.

To assign a CO or a MESSAGE button:

To assign a PF button:

Flexible CO button Assignment

CO buttons can be changed to the other CO number.

To exit the programming mode:
Set the MEMORY switch to “SET”.

Available proprietary telephones are KX-T7130, KX-T7020, and KX-T7050.
Single Line Telephone Features

Making Calls

<NOTE>
- **Off-hook**: Lift the handset.
- **On-hook**: Replace the handset.

### Intercom Calling

Allows you to make a call to another extension.

- **Off-hook**
- Dial extension no. (21 through 26)

### Doorphone

Allows you to have a conversation with a visitor at your door.

#### To call a doorphone:

- Off-hook
- Dial 31
- Wait for confirmation tone and talk

#### To unlock the door:

- Off-hook
- Dial 32
- On-hook

#### To unlock the door while talking to the doorphone:

- Flash hookswitch
- Dial 3

- You can unlock the door for programmed time.

### Outward Dialling

Allows you to make a call to an outside party.

- **Off-hook**
- Dial line access code
- Dial phone no.

#### Line access code

- Automatic Line Access code: 9 or 0 (depending on the system program)
- Individual Line Access code:
  - 81 (CO line 1) or 82 (CO line 2)

### System Speed Dialling

Allows you to make outside calls using previously programmed speed dial numbers.
This system supports eighty speed dial numbers which are available to all extension users.

- **Off-hook**
- Press *
- Dial System Speed Dial no. (00 through 39)

### Last Number Redial

Allows you to automatically re-enter the last outside number dialled.

- **Off-hook**
- Dial 80

When a Line is Busy

- **Last Number Redial**
- **Outward Dialling**
- **Intercom Calling**

Single Line Telephone Features

While Having a Conversation (contd.)

**Call Waiting**

During a conversation, a Call Waiting tone signals that there is a call waiting. You can respond to the waiting call by disconnecting from the first call or by placing the first call on hold.

To talk to the new party by terminating the current call:

- On-hook
- Off-hook

To talk to the new party by holding the current call:

- Flash hookswitch
- On-hook
- Off-hook
- Talk to the first party

**Conference**

Allows you to add a third party to a two-party conversation and make a three-party conference. You can have the following combination of calls on the line: three extensions, two extensions and one CO line, or one extension and two CO lines.

To establish a conference:

- The current party is placed on hold.

- Flash hookswitch
- Dial extension no. of the third party
- 3

- Flash hookswitch again after the third party answers
- Dial 3

To leave the conference:

- On-hook

- The other two parties can continue their conversation if they are not both CO lines.

To hold one party and talk to the other:

- Flash hookswitch
- Talk to the other party

**Call Splitting**

Allows you to have two callers on a line and alternate between them. You can place the current call on hold and have a conversation with the other party.

- Flash hookswitch
- Dial the second party and talk
- Flash hookswitch

- Talk to the first party

- Flashing the hookswitch alternates between the callers.
- When you go on-hook, the other two parties remain on-line.
Single Line Telephone Features

Paging Features
The Paging features allow you to make a voice announcement to several persons at the same time. Your message is announced over the built-in speaker of proprietary telephone. The paged person can answer your page from a nearby telephone.

**Paging All Extensions**
Allows you to make a voice announcement to all extensions. Your message is announced over the built-in speaker of the proprietary telephones.

```
To answer a page sent to the built-in speaker:

- Off-hook
- Dial 43
- You hear confirmation tone

- Talk
```

```
To transfer a call:

- Flash hookswitch
- Dial 33
- You hear confirmation tone

- Make announcement
- Wait for answer and talk

- Off-hook
- Dial 33
- You hear confirmation tone

- On-hook
```

**Other Features**

**Intercom Alerting Mode**
Allows you to switch voice calling to ring calling when making an intercom call. In Voice-Calling mode, you can talk to the other party immediately after the confirmation tone.

```
To answer a page sent to the built-in speaker:

- Off-hook
- Dial extension no. 21
- You hear confirmation tone

- Press *
- You hear ringback tone
```

• For programming, see page 28 of the Installation Manual.
Single Line Telephone Features

Other Features (contd.)

Call Forwarding

You can redirect all of your calls to another extension.

To set:

- Off-hook
- Dial 7
- Dial extension no. (21 through 26)
- Dial #
- On-hook

To cancel:

- Off-hook
- Dial 730#
- On-hook

• You may dial “0” instead of “#”.

Do Not Disturb (DND)

Allows you to prevent other parties from disturbing you. Your extension will not receive intercom or outside calls.

To set:

- Off-hook
- Dial 720#
- On-hook

To cancel:

- Off-hook
- Dial 70#
- On-hook

• You may dial “0” instead of “#”.

Call Pickup Deny

Allows you to prevent another extension from picking up your calls with the “Call Pickup” feature.

To set:

- Off-hook
- Dial 731#
- On-hook

To cancel:

- Off-hook
- Dial 70#
- On-hook

• You may dial “0” instead of “#”.
Single Line Telephone Features

Other Features (contd.)

**Data Line Security**

Your extension is protected against interruptions from “Call Waiting”, “Hold Alarm”, and “Executive Busy Override” features. Data communication devices, such as computers and facsimiles, will operate as usual.

*To set the data line security feature:*

```
Off-hook  Dial 741#
```

*On-hook*

*To cancel the feature:*

```
Off-hook  Dial 740#
```

*On-hook*

- You may dial “0” instead of “#”.

**Pulse to Tone Conversion**

Allows you to change from Pulse to Tone mode so that you can access special services such as computer-accessed long distance.

*To set:*

```
Dial phone no. (Pulse mode)  *  and #  Dial phone no. (Tone mode)
```

**Station Feature Clear**

Allows you to reset the following station features to the default setting:

- Call Forwarding
- Call Pickup Deny
- Data Line Security
- Do Not Disturb

*To clear the setting:*

```
Off-hook  Dial 79#  On-hook
```

- You may dial “0” instead of “#”.

**External Feature Access**

Allows you to access special features (e.g. Call Waiting) offered by a host PBX or Central Office. This feature is effective only during an outside call.

*To access an external feature (e.g. Call Waiting):*

```
Flash hookswitch  Dial 0  Talk to the new caller
```

```
Flash hookswitch  Dial 0  Talk to the first caller
```

- If the CO Line Access Number Selection is assigned “0”, the external feature access number becomes “9”. For programming, see page 28 of the Installation Manual.
Other Features (contd.)

Time Setting (extension 21 only)
Sets the current time.

- The clock starts immediately after pressing #.

Date Setting (extension 21 only)
Sets the current date.

Flexible Night Service (extension 21 only)
This system supports both the DAY and NIGHT modes of operation. The system operation for originating and receiving calls can be different in night and day modes.

To set the night mode:

To return to the day mode:
