Operating Instructions

INT INTEGRATED TELEPHONE SYSTEM

MODEL NO. KX-T61650 EASA-PHONE

Panasonic

Please read before use.
Thank you for purchasing the Panasonic Telephone.

Features

- **Designed Exclusively for** Electronic Modular Switching Systems except KX-T616 and KX-T616D.
- **3 Programmable Soft Buttons** for one-touch access to system features such as automatic call-back and paging. Can also store numbers for automatic dialing.
- **Electronic Hold** allows ordinary and exclusive hold, which doesn’t allow another extension to pick up the call. Holds up to 6 CO lines and one extension at once.
- **Call Transfer** switches either outside or internal calls to another extension.
- **CO Line BLF** indicates status of each CO line and lets you connect to a CO line by pressing a CO line button.
- **3-Way Conference** lets you converse with two parties simultaneously whether they are internal or external calls.

- **Last Number Redial** lets you dial the last number dialed, up to 32 digits long, at the touch of LNR button.
- **Speed Dialing** allows you to dial up to 100 32-digit telephone numbers (programmed in the system).
- **On-Hook Dialing** with monitor speaker lets you dial without lifting the handset.

DSS console KX-T61640 is provided as option. See “System Component” described on the reverse of the front cover in INSTALLATION MANUAL.

If you use a DSS console KX-T61640, you can access another extension by one touch of a DSS button instead of pressing an extension number, and system features of KX-T61610 by one touch of PROGRAMMABLE FEATURE button on a DSS console.

For further details, see OPERATING INSTRUCTIONS of KX-T61640.

For further details, see the Installation Manual.
# Quick Reference Card

## TO MAKE CALLS
- Lift the handset or press the MONITOR button first.
- After finishing your conversation, hang up the handset.

### INTER OFFICE CALLING (Intercom)
- Dial extension no. (11 through 26)

### OUTWARD DIALING
- **Individual Line Access**
  - CO
  - Dial phone number
- **Automatic Line Access**
  - WXY 9
  - Dial phone number

### SPEED DIALING
- AUTO
  - Memory
  - Dial speed access code (00 through 99)

### ONE TOUCH DIALING
- F
  - Press the PROGRAMMABLE FEATURE button.

### CALLING DOORPHONE
- For doorphone 1
  - DEF 3 1
- For doorphone 2
  - DEF 3 ABC

## WHEN A LINE IS BUSY
### AUTOMATIC CALL BACK BUSY
- **For Outside Calls**
  - CO
  - Hear a busy tone
  - MNO 6
  - Hang up handset or press "MONITOR"
- **For Intercom Calls**
  - Dial extension no. (11 through 26)
  - Hear a busy tone
  - MNO 6
  - Hang up handset or press "MONITOR"

### BUSY STATION SIGNALING
- Dial extension no. (11 through 26)
- Hear a busy tone
  - 1

### LAST NUMBER REDIAL
- Lift handset or press "MONITOR"
## TO RECEIVE CALLS

- To use the F3 button, it is required to be programmed beforehand in the KX-T61610.

**AUTO CO HUNTING**

- Setting
  - PRS 7 ABC 2 1 #
- To cancel
  - ICM MEMORY NO PRS 7 ABC OPER 0 #
Preparation

1. Connect as shown.

   - When power failure takes place, we recommend to use a standard telephone or KX-T61630 as extension 11 through 16 because the KX-T61650 will not operate.
   - Even if this unit is connected to telephone line (central office line), this unit will not operate.

2. **RINGER VOLUME** Selector:
   - Set to "HIGH".
   - **LOW**: The ringing sound will be low.
   - **OFF**: The telephone will not ring.

3. **MEMORY** Switch:
   - Set to "SET".

   If the unit does not operate properly, disconnect the unit from the extension line cord and then connect again.
Location of Controls

For your convenience, keep this page open when you read the following instructions.

MEMORY Card
Write speed access codes, names (see page 11) and system features (see page 26). Quick reference is printed on the Memory card.

TELEPHONE NUMBER Card and Card Cover
After writing numbers on the card, place the Card Cover from the side of the ICM button again. Twist the cover a little and place the two hooks which exist in the middle of the cover. You can also use the reverse side to write the desired CO line numbers.

CENTRAL OFFICE (CO) LINE Buttons and Indicators

MONITOR VOLUME CONTROL

AUTO/MEMORY Button

PAUSE Button

INTERCOM (ICM) Button and ICM/MEMORY Indicator

MONITOR Button

TRANSFER/CLEAR Button

PROGRAMMABLE FEATURE Buttons

NUMBER Card (Write your telephone number.)

LAST NUMBER REDIAL (LNR) Button

FLASH Button

HOLD Button
To Make Calls

Outward Dialing

Any of the 6 CO’s may be directly selected.

- **Individual Line Access**

  - [Diagram showing the process of placing a call through an individual line access]

- **You may dial 9 or 81 through 86 instead of the CO button.**
  In this case, you must lift the handset or press the MONITOR button first.

  - **9:** Each extension can automatically select an idle CO (Central Office) line within the KX-T61610.

  - **81 through 86:**
    Any of the 6 CO lines may be selected by dial access.
    - **81:** line access number of CO 1
    - **82:** line access number of CO 2
    - **83:** line access number of CO 3
    - **84:** line access number of CO 4
    - **85:** line access number of CO 5
    - **86:** line access number of CO 6

- **You cannot use the CO button whose indicator has been already lighting (red color) since anyone is using the CO line.**
- **The CO indicator will be lit (green color) at your extension and lit (red color) at other extensions.**
Each extension can access new CO line without hanging up.

While having a conversation:

- The original conversation will be terminated and new CO line can be accessed.

**Inter Office Calling (Intercom)**

Station to station dialing within the KX-T61610 system.

**Using the Handset**

- Lift the handset
- Dial the extension number (11 through 26)
- Talk
- Hang up

**On-hook Calling**

- Press "Monitor"
- Dial the extension number (11 through 26)
- When the other party answers, lift the handset
- Talk
- Hang up

- You may press the ICM button instead of the MONITOR button.

- The ICM indicator will be lit (green color) while using the unit.

When you converse with the other party through KX-T61650, use the handset by all means. You can hear the other party's voice but the other party cannot hear your voice in the on-hook mode (see "Monitor Operation" on page 27).
To Make Calls (cont.)

Speed Dialing

There are 100 memory locations of system speed dialing available.

LIFT THE HANDSET OR PRESS “MONITOR”
PRESS “AUTO”
DIAL THE SPEED ACCESS CODE (00 through 99)

- You may press the CO button to select the CO line directly after lifting the handset or pressing the MONITOR button.

One Touch Dialing

There are 3 memory locations for automatic dialing available.

Up to 32 digits can be stored into each memory location (PROGRAMMABLE FEATURE button).

For your convenience, program private phone numbers into the KX-T61650.
The F3 button can be changed from the PROGRAMMABLE FEATURE button into the Account Code button, Call Forwarding button and Do Not Disturb button by programming in the KX-T61610.
(See pages 30, 32, 33)
In this case, the F3 button can not be used for programming a phone number.

Programming

- Be sure the handset is in the cradle, the MONITOR button is off and a call is not reaching.
- Set the MEMORY switch of the KX-T61650 to “PROGRAM”.
In this case, the MEMORY indicator will flash slowly.

Storage

PRESS “PROGRAMMABLE FEATURE” (F1 through F3)
DIAL ‘9’
DIAL THE PHONE NUMBER
PRESS “MEMORY”

- You may dial 81 through 86 instead of 9.
9...Each extension can automatically select an idle CO line.
81 through 86...Each extension can select a CO line designated.

- 9 or 81 through 86 must be dialed for storage.
- You may program “*”, “#”, “FLASH” and “PAUSE”. (For further details, see pages 25 and 28.)
- When the PROGRAMMABLE FEATURE button is pressed, the MEMORY indicator will go out and the MEMORY indicator will flash slowly again when the MEMORY button is pressed.
To Correct an Error while Programming

- After pressing the CLEAR button, re-program the correct number.
- The TRANSFER button is used as the CLEAR button.

To Change a Stored Number

Repeat “Storage” on page 11.

To Confirm a Stored Number

Repeat programming the same number into the same station.

When the MEMORY button is pressed, a beep will be heard.
- Two beeps . . . . storage is correct.
- One beep . . . . storage is incorrect.

Repeat the procedure of programming.

To Erase after Programming

- The TRANSFER button is used as the CLEAR button.

After programming all the numbers, return the MEMORY switch to “SET”.
In this case, the MEMORY indicator will go out.
To Make Calls (cont.)

Dialing

LIFT THE HANDSET OR PRESS "MONITOR"
PRESS "PROGRAMMABLE FEATURE"

You may press the CO button to select the CO line directly after lifting the handset or pressing the MONITOR button.

Calling Doorphone

Up to two doorphone (VA-20861) can be connected to the KX-T61610.

Doorphone 1

LIFT THE HANDSET OR PRESS "MONITOR"
DIAL "31"

Doorphone 2

LIFT THE HANDSET OR PRESS "MONITOR"
DIAL "32"
When a Line is Busy

Automatic Call Back Busy (Camp-on)
If the intercom extension or outside line (CO line) you have dialed is busy, you will be automatically called back when the extension or the outside line (CO line) becomes free using this function. This feature is also known as camp-on.

For outside (CO line) calls
- **CO**
  - PRESS "CO"
- **YOU WILL HEAR A BUSY TONE**
- **MNO**
  - DIAL "6"
- **CONFIRMATION TONE OF 2 BEEPS WILL BE HEARD**
- **HANG UP OR PRESS "MONITOR"**

For intercom calls
- **DIAL THE EXTENSION NUMBER (11 through 26)**
- **YOU WILL HEAR A BUSY TONE**
- **MNO**
  - DIAL "6"
- **CONFIRMATION TONE**
- **HANG UP OR PRESS "MONITOR"**

When hearing the ring back on intercom calls or an outside call, lift the handset or press the MONITOR button.

- If you make or receive a call during camp-on mode, the camp-on mode will be canceled.

Busy Station Signaling
If the extension you have dialed is busy, you can inform that extension that another intercom call is reaching by three beeps. For use of this feature, the other extension is required to be set this feature beforehand in the KX-T61610.

- **DIAL THE EXTENSION NUMBER**
- **YOU WILL HEAR A BUSY TONE**
- **DIAL "1" AND WAIT FOR AN ANSWER**

- To answer your signaling, see "Call Waiting" on page 20.
- While the other party is using a data terminal equipment, you may not be able to use this feature.
- If a busy tone is heard after dialing 1, it indicates that the other party has not set this feature.

Last Number Redial
The last phone number dialed on an outgoing CO can be redialed.

- **LIFT THE HANDSET OR PRESS "MONITOR"**
- **PRESS "LNR"**

- You may press the CO button to select the CO line directly after lifting the handset or pressing the MONITOR button.
To Receive Calls

Answer

- Lift the handset

- When "Automatic Answering Selection" feature is selected "manual" mode in the KX-T61610 and outside call reaches, lift the handset and then press the CO button whose indicator is flashing (red color) quickly.

- You can distinguish a CO call, a Intercom call or a Doorphone call by a kind of ring tones. For further details, see page 6-6 in INSTALLATION MANUAL.

Dial Call Pickup

Through the use of this feature, an extension user can answer any ringing extension within their own pickup group.

- Lift the handset
- Dial "40"

Directed Call Pickup

An extension may answer an incoming call that is ringing at another extension regardless of the pickup group.

- Lift the handset
- Dial "40"
- Dial the ringing extension number
Call Park Retrieve

Allows extension user to retrieve a call (intercom or outside) on hold at any extension.

■ To Park a Call

- **HOLD**
- **PRESS "HOLD"**
- **REPLACE THE HANDSET**

See “Call on Hold” on pages 17 and 18.

■ To Retrieve a Parked Call at Any Extension

- **LIFT THE HANDSET**
- **DIAL "S"**
- **DIAL PARKED EXTENSION NUMBER**

■ In case parked call is outside call, you may dial parked CO line number (81 through 86) instead of parked extension number.

Doorphone

This feature is required to be set beforehand in the KX-T61610. For programming, see page 3-32 in INSTALLATION MANUAL.

■ For Answering Doorphones

- **LIFT THE HANDSET**

When you want to make an outside call while an outside call is reaching, press the CO button.
While Having a Conversation

Hold-CO

Call on Hold
If you wish to leave your phone unattended but want the caller you are in conversation with to wait, call hold may be used. Outside calls may be placed on hold.

- The indicator of the CO button which is on hold will flash slowly (green color).
- The indicator of the CO button which is on hold will flash slowly (red color) at other extensions.

To Retrieve a Call on Hold

Press "CO"

Press the CO button whose indicator is flashing slowly (green color).

To Retrieve a Call on Hold from Another Extension

Lift the Handset

Press "CO"

Press the CO button whose indicator is flashing slowly (red color).

or

Lift the Handset

Dial "5"

Dial the holding extension number
Hold-CO

Call on Exclusive Hold
Calls on exclusive hold can not be released by any extensions other than the phone which placed the call on hold.

- The indicator of the CO button which is on hold will flash in groups of 2 (green color).
- The indicator of the CO button which is on hold will light (red color) at other extensions.

**To Retrieve**

- Press the CO button whose indicator is flashing in groups of 2 (green color).

Hold-Intercom

Call on Hold
Extension user can place an intercom call on hold. An Intercom hold can be activated on one extension only.

**To Retrieve a Call on Hold**

- The ICM indicator will be on.

**To Retrieve a Call on Hold from Another Extension**

- LIFT THE HANDSET
- DIAL "5"
- DIAL THE HOLDING EXTENSION NUMBER
While Having a Conversation (cont.)

Hold-Intercom

Call on Exclusive Hold
Calls on exclusive hold can not be released by any extensions other than the phone which placed the call on hold. An Intercom hold can be activated on one extension only.

- The ICM indicator will flash in groups of 2.

To Retrieve

- You may press the HOLD button instead of the CONFERENCE button first.

To Terminate One Caller and Talk to the Another Caller

- If both the conference parties are on the CO line; Press the CO button to talk to the desired party.
- If both the conference parties are on the extension; Press the ICM button. You will be connected to the first participant.
- If the conference parties are on the CO line and extension; To talk to the CO party, press the CO button. To talk to the extension party, press the ICM button.
Call Waiting

Call Waiting Tone during a conversation indicates there is a new incoming CO call or Intercom call. This feature is required to be set beforehand in the KX-T61610. For programming, see page 3-28 in INSTALLATION MANUAL.

If a call waiting tone is heard and the CO or ICM indicator does not flash, this tone indicates a call waiting tone by special company service. In this case, see “Call Waiting—Outside Line” on page 25.

■ To Terminate the Original Call and Talk to the New Caller

- 3 beeps
- WILL HEAR A CALL WAITING TONE
- PRESS “CO” OR “ICM” WHOSE INDICATOR IS FLASHING QUICKLY
- (The original call is now terminated.)

■ To Place the Original Call on Hold and Talk to the New Caller

- If both original call and new call are intercom calls:
  (The ICM indicator will change lighting into flashing quickly when new call reaches.)

- 3 beeps
- WILL HEAR A CALL WAITING TONE
- PRESS “HOLD” (The dial tone is not heard.)
- CONSULT WITH THE NEW CALLER WHILE THE ORIGINAL CALL IS ON HOLD
- PRESS “ICM” TO TERMINATE THE 2ND CALL AND TO RETURN TO THE ORIGINAL CALL

- If original call is CO call, and new call is CO call or intercom call: or
  If original call is intercom call and new call is CO call:

- 3 beeps
- WILL HEAR A CALL WAITING TONE
- PRESS “HOLD” (The dial tone is heard.)
- CONSULT WITH THE NEW CALLER WHILE THE ORIGINAL CALL IS ON HOLD
- PRESS “CO” OR “ICM” WHOSE INDICATOR IS FLASHING QUICKLY
- ICM MEMORY IND

- PRESS “CO” OR “ICM” WHOSE INDICATOR IS FLASHING SLOWLY TO TERMINATE THE 2ND CALL AND TO RETURN TO THE ORIGINAL CALL.
While Having a Conversation (cont.)

Call Splitting—Between CO and Intercom

Allows an extension user to alternate between a CO party and an Intercom party.

- To release the call splitting mode, press the CO or ICM button without pressing the HOLD button. Conversation will be terminated and call on hold will be returned to conversation.

Call Splitting—Intercom

Allows an extension user to alternate between two intercom parties.

- To release the call splitting mode, press the ICM button instead of the HOLD button. Conversation will be terminated and call on hold will be returned to conversation.
Call Transfer

Outside calls or intercom calls may be transferred to any extension manually.

■ To Transfer after the Other Extension Answers

1. Press "TRANSFER"
2. Dial the extension number (11 through 26)
3. Announce and wait for an answer
4. Hang up

- When busy, you may access the other extension by dialing 1. Also, you may return to the calling party by pressing the CO or ICM button whose indicator is flashing slowly (green color).

■ To Transfer without Announcing to the Other Extension

1. Press "TRANSFER"
2. Dial the extension number
3. Hang up

■ To Retrieve the Call

If the other extension did not receive the transferred call within 30 seconds after the call has been transferred, the call will return to you. In this case:

While the ring back is hearing,

Lift the handset to return to the calling party.

- To change the party to whom a call is transferred before hanging up: Press the CO or ICM button whose indicator is flashing slowly to retrieve the call, then repeat the procedure of Call Transfer.

- The time that the transferred call which is not received returns to you, may be set to 15 seconds. For changing, see page 3-53 in INSTALLATION MANUAL.
Paging

Paging All Extensions

Allows paging to all extensions.
The page can only be heard from proprietary telephone. (For example, KX-T61620, KX-T61630 or KX-T61650)

To Access

- Lift the handset
- Dial "34"
- Confirmation tone of 1 beep will be heard
- Page will be heard from built-in speaker.

Paging Group

Allows paging to one of four groups.
The page can only be heard from proprietary telephone. (For example, KX-T61620, KX-T61630 or KX-T61650)

To Access

For Pickup Group 1

- Lift the handset
- Dial "35"
- Confirmation tone of 1 beep will be heard
- Page will be heard from built-in speaker.

- For Pickup Group 2: At step 2 above, dial 36 instead of 35.
- For Pickup Group 3: At step 2 above, dial 37 instead of 35.
- For Pickup Group 4: At step 2 above, dial 38 instead of 35.

If the dial tone (continuous tone) changes to a reorder tone (intermittent tone) or a mistake is made, hang up and start again.
Paging-External
Allows access to external paging equipment.

To Access
- LIFT THE HANDSET
- DIAL "33"
- CONFIRMATION TONE
- PAGE
- WAIT FOR CONFIRMATION TONE AND TALK
- Page will be heard from external paging equipment.

Paging And Transfer
To Transfer a Call to the Paged Person
- WHILE HAVING A CONVERSATION
- PRESS "TRANSFER"
- DIAL "34"
- CONFIRMATION TONE
- You may dial 35, 36, 37, 38 or 33 instead of 34.

Answer
A page from built-in speaker or external paging equipment can be answered from any extension.

- LIFT THE HANDSET
- DIAL "43"
- CONFIRMATION TONE
- TALK
- If a call and CO number has been paged and transferred, you may answer by pressing the CO button whose number has been paged and indicator is flashing slowly (red color), instead of dialing 43.
Use of Other Features

Background Music

Music from an external source (e.g. radio) can be listened to on the built-in speaker of the telephone.

To Enable

LIFT THE HANDSET OR PRESS "MONITOR"
DIAL "751#"

HANG UP OR PRESS "MONITOR"
WILL HEAR MUSIC

To Cancel

LIFT THE HANDSET OR PRESS "MONITOR"
DIAL "750#"

External Feature Access

Allows extension user to access features of the central office or host PBX. (e.g. CALL WAITING FEATURE can be supplied by Central Office.)
The external feature (e.g. CALL WAITING FEATURE) can only be accessed when engaged on an outside call.
The following example shows you one of the procedures.

Call Waiting—Outside Line

WILL HEAR A CALL WAITING TONE
PRESS "FLASH"
CONSULT WITH THE NEW CALLER WHILE THE ORIGINAL CALL IS ON HOLD
PRESS "FLASH"
CONSULT WITH THE ORIGINAL CALLER WHILE THE 2ND CALL IS ON HOLD

If the calling party on hold hangs up, the line is terminated.
- "Flash" can be stored into memory in the same way as "Storage" on page 11.

- You may access some features of host PBX using the FLASH button. If KX-T61610 is connected to host PBX and flash operation is required, follow the procedure of flash operation which is required in the host PBX.

One Touch Access for System Features

Features that can be accessed by using the Dialing button also can be programmed into memory (e.g. Paging All Extensions, Background Music.)

The F3 button can be changed from the PROGRAMMABLE FEATURE button into the Account Code button, Call Forwarding button and Do Not Disturb button by programming in the KX-T61610. (See pages 30, 32, 33)

In this case, the F3 button can not be used for programming a system feature.

To Program

- Be sure the handset is in the cradle, the MONITOR button is off and a call is not reaching.
- Set the MEMORY switch of the KX-T61650 to "PROGRAM".
  In this case, the MEMORY indicator will flash slowly.

Example:

Paging All Extensions (Dial 34)

![Diagram]

- System feature described in the table on page 39 can be programmed into memory.
- After programming all the system features, return the MEMORY switch to "SET".

To Access

LIFT THE HANDSET OR PRESS "MONITOR"

PRESS "PROGRAMMABLE FEATURE"
Use of Other Features (cont.)

Monitor Operation

During Monitor operation, the incoming voice can be monitored, but the outgoing voice will not be heard by the other party (this is mute operation).

**For Monitor and Mute Operation**

- The other party's voice will be heard through the MONITOR speaker.
- Your voice will not be heard by the other party.

**To Cancel Monitor and Mute Operation**

When the handset is in the cradle:

- You can talk to the other party through the handset. If you press the MONITOR button instead of lifting the handset, the call will be terminated.

When the handset is being lifted:

- 2-way conversations through the handset will be resumed.
Pulse/Tone Conversion

When the dialing mode is required to change a pulse mode to a tone mode in one dialing sequence, this feature is used. (e.g. computer-accessed long distance service)

- When you dial using this feature, you must use the line set to a pulse mode. Phone number after dialing "*, #" will be changed to tone mode.

Example: (Computer-accessed long distance service)
- Local access telephone number of the alternate long distance service company 765-4321, Authorization no. 0123456, Long distance no. 543-210-9876
- Pulse mode is required by local access telephone number of the alternate long distance service company.
- Service of MCI, SPRINT, ME I HO or other systems is used.

Pause time
Pressing the PAUSE button once will provide a 3.5-second pause in the dialing sequence, and twice provide a 7-second pause.

Intercom Alerting Mode

“Voice alerting” (through built-in speaker) that is established at the called party’s extension, can be switched to “Tone alerting” (ringing). This feature is required to be set beforehand in the KX-T61610. For programming, see page 3-31 in INSTALLATION MANUAL.

Switching to “Tone Alerting” Activation when “Voice Alerting” has been Established on the Called Party’s Extension

- Lift the handset or press “monitor”
- Dial the extension number
- Wait until a confirmation tone is heard
- Dial "*"
- Ring back tone
Use of Other Features (cont.)

Flexible CO Button

Allows each CO button to change into CO number which is different from printed CO number.

- Be sure the handset is in the cradle, the MONITOR button is off and a call is not reaching.
- Set the MEMORY switch of the KX-T61650 to "PROGRAM". In this case, the MEMORY indicator will flash slowly.

**Account Code**
This feature gives each message of the SMDR an account code of the called or calling party. (Station Message Detail Recording—SMDR is cost saving feature that records all incoming and outgoing calls through CO line.) This feature has two modes—"Forced" and "Option". In the "Forced" mode, the account code must be entered every time the extension user dials. In the "Option" mode, the account code may be entered when a record of the account code is needed. When setting to the "Forced" mode, see page 3-34 in INSTALLATION MANUAL. For use of this feature, the PROGRAMMABLE FEATURE (F3 only) button must be programmed beforehand as the Account Code button in the KX-T61610. For programming, see page 3-54 in INSTALLATION MANUAL.

**Forced Mode**

**Making a Call**

- You may dial 9 or 81 through 86 instead of pressing the CO button.
- Account code must be required 4 numerical digits except for the # and * button.
- If the account codes are programmed with the telephone numbers for one touch dialing or system speed dialing, you need not dial the account code when making a call. Program as follows.

| WXY | 9 | * | * | Account code (4 digits) | Telephone number |
Use of Other Features (cont.)

- Receiving a Call

If you want to record a calling party's account code in the SMDR, follow the below-mentioned procedure.

Within 30 seconds of finishing your conversation or while having a conversation,

- Dialing the account code must be done before hanging up.

Option Mode

- Making or Receiving a Call

If you want to record a calling or called party's account code in the SMDR, follow the below-mentioned procedure.

Within 30 seconds of finishing your conversation or while having a conversation,

- Dialing the account code must be done before hanging up.

- If you enter the wrong account code, press the F3 button and enter the correct code.
Station Programming

Call Forwarding
Intercom or outside calls to your extension can be automatically forwarded to any extension within the system.

The PROGRAMMABLE FEATURE (F3 only) button can also be used for "Call Forwarding". In this case, programming should be done beforehand in accordance with page 3-54 in INSTALLATION MANUAL.

Even if the F3 button is not programmed as the Call Forwarding button, this feature can be used by dialing.

Setting

LIFT THE HANDSET OR PRESS "MONITOR"
PRESS "F3"
DIAL THE EXTENSION NUMBER TO WHOM THE CALL IS FORWARDED
HANG UP OR PRESS "MONITOR"

• You may dial 71, the extension number and # instead of pressing the F3 button and dialing the extension number.

To Cancel

LIFT THE HANDSET OR PRESS "MONITOR"
PRESS "F3"
DIAL "0"
HANG UP OR PRESS "MONITOR"

• You may dial 70# instead of pressing the F3 button and dialing 0.

Data Line Security

This feature provides security when transmitting data through an extension of KX-T61610.

The parallel connection of the KX-T61650 and a data terminal equipment is impossible.

Setting

LIFT THE HANDSET OR PRESS "MONITOR"
PRS 7 GHI 4 1 #
DIAL "741#"
HANG UP OR PRESS "MONITOR"

To Cancel

LIFT THE HANDSET OR PRESS "MONITOR"
PRS 7 GHI 4 OPER 0 #
DIAL "740#"
HANG UP OR PRESS "MONITOR"
Station Programming (cont.)

Dial Call Pickup Deny

Allows you to prohibit any other extension user from answering calls directed to you.

To Cancel

Do Not Disturb

Each extension can be individually programmed from receiving intercom or outside calls. The PROGRAMMABLE FEATURE (F3 only) button can also be used for “Do Not Disturb”. In this case, programming should be done beforehand in accordance with page 3-54 in INSTALLATION MANUAL. Even if the F3 button is not programmed as the Do Not Disturb button, this feature can be used by dialing.

To Cancel

- You may dial 7110# instead of pressing the F3 button and dialing 10.

- You may dial 70# instead of pressing the F3 button and dialing 0.
Station Program Clear

Dialing (79#) will clear station programs on that extension.

LIFT THE HANDSET
OR PRESS
"MONITOR"

DIAL "79#"

HANG UP OR
PRESS
"MONITOR"

The following feature can be canceled.

- Dial Call Pickup Deny
- Background Music
- Do Not Disturb
- Call Forwarding
- Data Line Security
- Auto CO Hunting
Example of Operation

To Place a Call on Hold, and to Make Another Call

Example (CO line):
- Call in progress: CO 1
- New call: CO 2

Example (Intercom):
- Call in progress: on extension 12
- New call: on extension 13

To Make a Call and Transfer a Called Party to Another Extension

Example:
- Call in progress: CO 1
- Extension to whom a call is transferred: Extension 12
To Place One Call on Hold and Transfer the New Call to an Extension

Example:
Call in progress .................................. CO 1
New call ............................................. CO 2
Extension to whom a call is transferred ................. Extension 12

- PRESS "HOLD"
- PRESS "CO 2"
- MAKE OR RECEIVE A NEW CALL
- CONSULT WITH THE NEW CALLER WHILE THE CALL ON CO 1 IS ON HOLD
- PRESS "TRANSFER"

- DIAL THE EXTENSION NUMBER 12
- HANG UP

- CO 2 call is now transferred to extension 12.
- CO 1 call is still on hold.

To Place Three Calls on Hold, Transfer Two of the Calls to Extensions and Talk to Call on Hold

Example:
Call in progress .................................. CO 1
New call ............................................. CO 2, CO 3
CO 1 is transferred to extension 14.
CO 2 is transferred to extension 15.

- PRESS "HOLD"
- PRESS "CO 2"
- MAKE OR RECEIVE A NEW CALL
- CONSULT WITH THE NEW CALLER WHILE THE CALL ON CO 1 IS ON HOLD
- PRESS "HOLD"
Example of Operation (cont.)

- The call on CO 1 is now transferred to extension 14.
- The call on CO 2 is now transferred to extension 15.
- The call on CO 3 is now returned into conversation.

- You can transfer a desired call on CO to an extension in desired order regardless of order of placing on hold.
Busy Lamp Field

The indicators corresponding to the ICM (Intercom) and the CO buttons will indicate the status of the extensions.

### ICM indicator light

<td>in use at another extension</td>
</tr>
<tr>
<td>slow flashing (red color)</td>
<td>on hold at another extension</td>
</tr>
<tr>
<td>quick flashing (red color)</td>
<td>receiving</td>
</tr>
</tbody>
</table>

**Notes:**

- If a call reaches through the CO line to which the CO line number is not assigned, the ICM indicator will flash quickly. And the CO call can be received by lifting the handset.
- If a call on CO line to which the CO line number is not assigned, is placed on hold, the ICM indicator will flash.

NAME OF DEALER

DEALER'S ADDRESS
Wall Mounting

This unit can be mounted on a wall phone plate.

To rotate the handset guide for wall mounting

1. Pull up in the direction of arrow A.
2. Set by rotating as shown.

Fig. 1

To temporarily place the handset down during a conversation, hook as shown.

Fig. 2

4. Mount the unit to the wall phone plate then seat securely by hooking as shown in Fig. 5.
5. Connect the cord to the telephone line jack.

Fig. 3

Fig. 4

To mount the unit on a wall phone plate

1. Remove the rest by pulling in the direction of the arrow B while pushing the two snap tabs simultaneously in the direction of the arrow A, as shown in Fig. 3.
2. Insert the hooks of the rest into the hole of the unit then replace rest by pushing it in the direction of the arrow C, as shown in Fig. 4.
3. Connect the telephone cord to the unit.

Fig. 5

When you want to connect the unit to a wall phone plate using a short telephone cord, have a house-wiring installed by the telephone company or a qualified installer, purchase a short telephone cord of 4-conductor and connect the cord to a wall phone plate.
• If there is any trouble, disconnect the unit from the extension line and connect a known working phone. If the known working phone operates properly, have it repaired by one of the specified Panasonic Factory Service Centers. If the known working telephone does not operate properly, check the Electronic Modular Switching System (KX-T61610).

• Keep the unit away from heating appliances and electrical noise generating devices such as fluorescent lamps and motors.

• The unit should be kept free of dust, moisture and vibration, and should not be exposed to direct sunlight.

• Do not use benzine, thinner, or the like, or any abrasive powder to clean the cabinet. Wipe it with a soft cloth.

**WARNING:**
**TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR ANY TYPE OF MOISTURE.**
Do not use any handset other than Panasonic handset for model KX-T61650 use.

"**WARNING**"
This equipment generates, uses, and can radiate radio frequency energy and if not installed and used in accordance with the instructions manual, may cause interference to radio communications. It has been tested and found to comply with the limits for a Class A computing device pursuant to Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference when operated in a commercial environment. Operation of this equipment in a residential area is likely to cause interference in which case the user at his own expense will be required to take whatever measures may be required to correct the interference.

---

**Important Information**

This telephone does not provide magnetic coupling to hearing aids.

FCC rules prohibit the use of non-hearing aid-compatible telephones in the following locations or applications:

(1) All public or semipublic coin-operated or credit card telephones.

(2) Elevators, highways and tunnels (automobile, subway, railroad or pedestrian) where a person with impaired hearing might be isolated in an emergency.

(3) Places where telephones are specifically installed to alert emergency authorities such as fire, police or medical assistance personnel.

(4) Hospital rooms, residential health care facilities, convalescent homes, and prisons.

(5) Workstations for hearing impaired personnel.

(6) Hotel, motel, apartment lobbies; in stores where telephones are used by patrons to order merchandise; in public transportation terminals where telephones are used to call taxis, or to reserve lodging or rental automobiles.

(7) Hotel and motel rooms. (At least ten percent of the rooms must contain hearing aid-compatible telephones; or contain jacks for plug-in hearing aid-compatible telephones which will be provided to hearing impaired customers upon request.)
Accessory Order Information

- Replacement parts and accessories are available through your local authorized parts distributor.
- For the authorized distributors in your area, call toll free: 1-800-447-4700.

General Information
Limited Warranty

Panasonic Company, PHI or PSC will repair this product with new or rebuilt parts, free of charge, in the U.S.A. or Puerto Rico for one (1) year from the date of original purchase in the event of a defect in materials or workmanship.

Batteries (if included)—New rechargeable batteries in exchange for defective rechargeable batteries for ten (10) days from the date of original purchase. Non-rechargeable batteries are not warranted.

Carry-in or mail-in service in the continental U.S.A. can be obtained during the warranty period from a Matsushita Services Company (MSC) Factory Servicenter listed in the Servicenter Directory. Or call 1-800-447-4700, toll free, to locate an authorized MSC Servicenter. Carry-in or mail-in service in Puerto Rico or Hawaii can be obtained during the warranty period by calling the telephone numbers listed in the Servicenter Directory.

This warranty is extended only to the original purchaser. A purchase receipt or other proof of date of original purchase will be required before warranty performance is rendered.

This warranty only covers failures due to defects in materials or workmanship which occur during normal use. It does not cover damage which occurs in shipment or failures which are caused by products not supplied by Panasonic Company, PHI or PSC or failures which result from accident, misuse, abuse, neglect, mishandling, misapplication, alteration, faulty installation, modification, or service by anyone other than a MSC Factory Servicenter or authorized MSC Servicenter or damage that is attributable to acts of God.

LIMITS AND EXCLUSIONS

There are no express warranties except as listed above.

PANASONIC COMPANY, PHI AND PSC SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY.

ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE APPLICABLE WARRANTY PERIOD SET FORTH ABOVE. Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above exclusions or limitations may not apply to you.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

If a problem with this product develops during the warranty period, you may contact your dealer or Servicenter. If the problem is not handled to your satisfaction, then write to the Consumer Affairs Division at the company address indicated below.
